

RENDERED FINISH GARAGE DOORS

Modern, stylish and luxurious.

Concrete look render is one of today's most popular choices in home design and styling. This is not only due to its pleasing aesthetic, quality and texture, but also for its strength and durability in the harsh Australian conditions.

A concrete look rendered finish garage door is a stylish and modern complement to your home, enhancing and unifying your home's facade. When a smooth concrete look render is applied to the garage door, the finished result is modern, high end and luxurious.

Steel-Line rendered finish garage doors can be adapted to many different architectural styles using our modern powder coating technology. They are made from BlueScope steel, preferred by builders and designers alike for its strength, durability, flexibility, lightness and corrosion - resistance.

COLOURS

LIMESTONE

LAVA

MOSAIC

Please note: The colours shown are a guide only. The limitations of printing processes make extremely accurate matches impossible. We strongly recommend comparing your choice with actual samples. Additionally, Steel-Line reserves the right to vary or delete colours without notice.
