

Slimline sectional garage door in Blushed Teak™

Colorbond® Timber Look Garage Doors

If you're ready to draw the line at average and reach for better call us today.

To locate Steel-Line branches across Australia call: **1300 427 243** or visit steel-line.com.au

Durable and easy to maintain, Steel-Line introduces two new colours to the existing Colorbond® timber look sectional door range that combines the appearance of timber with the strength of Colorbond® steel. The result is a range of sectional garage doors which gives your home the stylish look without the price tag of real timber and extensive maintenance requirement. Unlike timber, these garage doors won't warp, shrink, splinter or rot; and they are also completely impervious to termites.

A garage door made from Colorbond® steel can give you lifelong performance. Thanks to the five-layer design of Colorbond® steel, it provides corrosion resistance and a durable baked on paint finish, making it look great and easy to maintain. With the new Colorbond® steel colours, the timber look garage doors provide an elegant twist with even greater design opportunities for your home.

The strength of Australian steel.

Made from only the high quality Australian BlueScope® Steel, our Colorbond® timber look sectional garage doors offer all the security and peace of mind that you have come to expect from Steel-Line garage doors. Proudly manufactured right here in Australia, these garage doors are built tough enough to endure the extremes of Australia's harsh weather conditions.

Colorbond® Timber Look Colour Range

TWO BRAND NEW Colours:

Blushed Teak™

Ashen Black Oak™

An extension of the already popular Colorbond® steel range, inspired by the natural flora and fauna of Australia:
