Sectional Garage Doors

Enhance the exterior of your home with a garage door that will complement any style of architecture. Steel-Line WA has a range of garage door styles to suit the unique characteristics of your home. Choose from the stylish Heritage, Stanford, Ranch, Ribline, Fineline or Flatline door styles and then select the finish of your choice to really dress up and enhance the exterior of your home.

Make a bold impression with a stunning Steel-Line Sectional Garage Door.

Your garage door is possibly the largest exterior feature of your home so the right colour and finish treatment are essential. In addition to the Colorbond® colours, Steel-Line WA also offers a unique range of UniCote® LUX timber finishes allowing you to match your garage door to other external finishes.

Steel-Line's Sectional Garage Doors have exceptional weather-resistant qualities. They are resilient against wind and dust conditions and come with tough PVC weather seals and heavy duty aluminium bottom rails, so you can trust that the precious contents of your garage are protected at all times.

Door Profiles & Measurements

Fineline

Ribline

Flatline

NOTE:

- Heritage and Ranch may not be available in certain sizes
- Flatline available in smooth at additional costs

Heritage

Stanford

Ranch

In placing an order you will be required to submit the following information.

Description	Measurements
Opening Size Height LHS	
Opening Size Height RHS	
Opening Size Width	
Side Room LHS (Min 125mm)	
Side Room RHS (Min 125mm)	
Headroom (Min 250mm)	
Backroom (Min backroom door height + 900mm)	

(View from inside of garage, looking out)

Example: 2160mm opening height will require a 2160mm high door.

DECO
WOOD

Timbers of the World Series

UniCote
LUX

Architectural Series

Premium Colours

Matt Finish

Colobond

NOTE:

- All colours shown on this chart are a guide only. The limitations of printing processes make extremely accurate matches impossible. We strongly recommend comparing your choice with actual samples. Additionally, Steel-Line reserves the right to vary or remove colours without notice.
- Premium colours are not available in smooth finish.
- UniCote® LUX range is only available in the Flatline, Ribline and Fineline sectional door profiles. Ashwood has a smooth finish whilst other "Timbers of the World" series have a slightly textured finish. Please see the product samples.

* Available for order from Brisbane QLD branch at an additional charge.

Fit your Steel-Line Sectional Garage Door with an automatic opener for hassle free entry to and exit from your garage.

All of our openers are engineered to the highest standards ensuring easy operation, optimum performance, long life and peace of mind.

Soft Start and Stop Function

This feature is designed to allow for a quiet and smooth garage door operation, which is important when the garage is located close to bedrooms or living areas.

Auto Reverse System

For added safety, each installation comes with this automated feature that causes the garage door to immediately stop and reverse when it comes into contact with an object.

Auto Sensing Force

During operation the force required is constantly monitored and adjusted to ensure economical operation and reduced wear and tear.

Courtesy Light

This courtesy light is the most convenient way to navigate through your garage and to get in and out of your car. The light automatically switches on and off as you open and close your garage door.

Wireless Wall Transmitter

Can be installed near an internal access door to your garage giving you greater convenience to open and close your garage door.

Remote Handsets

The key ring remote handsets are small and convenient with the ability to operate up to four garage doors or gates from the one unit. A must have for every set of keys in the house.

Optional Wireless Keypad

The Wireless Keypad can be programmed with multiple, unique user codes. It is perfect for the family, tradespeople, or going for a walk. This means you can leave your keys at home with peace of mind.

Optional Photo Eye (PE) Beams

Allows the garage door to automatically reverse when its sensory light beam is broken by an obstruction, helping to protect your family from injury and your car from damage caused by contact.

Available as wired or wireless.

Quality Features That Will Stand The Test Of Time

For many years Steel-Line's range of garage doors has set the benchmark for style and quality throughout the Australian garage door industry.

Most Steel-Line Sectional Garage Doors can be automated for ease of use. As a market leader in safety and innovation, all of Steel-Line's automatic garage door openers come with a range of safety features. The standard 'Auto Reverse System' causes the garage door to immediately stop and reverse when it comes into contact with an object, while the optional 'Photo Eye' feature automatically reverses the closing garage door if its electronic beam senses an obstruction. Furthermore, to ensure smoothness of operation and one of the quietest garage door mechanisms available, Steel-Line uses specially designed composite nylon and steel hinges.

Safety Features

Steel-Line's Sectional Garage Doors feature a curved finger proof joint for added safety. This unique award-winning design not only safeguards your family against serious injury, it seals out elements that can penetrate conventional garage doors. In addition, all internal edges of the doors are hemmed to reduce the risk of injuries near the edges.

Heavy Duty Bottom Rail

Every Steel-Line Sectional Garage Door is fitted with a sturdy heavy duty bottom rail to increase strength in the lower part of the garage door. A tough and durable weather seal is added to the bottom rail for extra protection from the elements.

Truefit Pelmet

The Truefit pelmet system creates a clean, modern and seamless finish by integrating the pelmet into the front of the garage door so it is in line, replacing the boxed pelmet extruding from the top of the door. The aesthetic achieved enhances the elevation of your door and can save hundreds of dollars on building costs, as the steel lintel and brickwork across the door opening is no longer required.

Strong Hinges

Steel-Line uses heavy duty steel hinges for trouble free operation.
