Extended 10 Year Warranty

Enjoy complete confidence with an **extended 10 year motor warranty** - performance you can count on.

Key Benefits

Quality Tested

Proven technology coupled with robust design backed up by rigorous quality testing.

Soft Start/Stop Function

Ensure smooth and quiet door operation which is important when the garage is located close to bedrooms or living areas.

LED Courtesy Light

A convenient way to navigate through your garage environment and get in and out of your car (operates for 9 minutes).

Transmitter Range

Remote distance: Effective operating range of up to 100m. 433.92 MHz transmitter frequency.

Maintenance Reminder

This provides an audible reminder that the garage door is due for a service.

Versatile Installation

Multiple mounting options suit various garage layouts, including standard side installation or traditional ceiling/rail installation.

Standard Safety Features

Auto Safety Reverse

If an obstruction occurs during closing of the door this function causes the garage door to immediately stop and reverse direction upon contact with the obstruction. Reversing system complies with AS/NZS 60335-2-95.

Auto Sensing Force

During operation the force required is constantly monitored and adjusted to ensure economical operation and reduced wear and tear.

Digital Limit System

Equipped with digital limit system for ease of programming during installation.

Manual Release

In case of power failure you can simply activate the manual release to open your garage door.

Typical Installation - Sectional Door

Door Size Guide

(based on a standard single Sectional Door with cylindrical cable drum)

Installation Options	Maximum Door Size
Side	18m ²
Ceiling / Rail	17m ²

Side mounted installation

Ceiling / Rail mounted installation

Included Home Enhancers

PE Beams

Allows the garage door to automatically reverse when its sensory light beam is broken by an obstruction, helping to protect your family from injury and your car from damage caused by contact.

Available as wireless only.

E-Lock

The E-Lock enables remote control and status monitoring. When the door is completely closed, the E-Lock automatically locks.

Available as wireless only.

Optional Home Enhancers

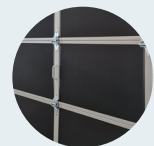

Built In Lithium Battery Backup

A Battery Backup provides an energy supply in the event of a power outage allowing you to still operate your garage door. An optional built in 30V lithium battery means no installation or wiring is required.

Wireless Keypad

The Wireless Keypad can be programmed with multiple, unique user codes. It is perfect for the family, tradespeople, or even when going for a walk. This means you can leave your keys at home with peace of mind.

Insulation

A Mammoth® Insulated Garage Door not only maintains warmth during winter and keeps things cool in summer, but also reduces your energy expenses.

Available on all standard Sectional Garage Doors.
